PROFILE

Motivated front-end developer with strong skills in web technologies, problem-solving, time management, and team collaboration, eager to contribute to innovative projects while continuing to learn and grow.

EDUCATION

Bachelor Of Technology(EEE)   06/2022
University College Of Engineering JNTUK-Narasaraopet (7.94)

Intermediate(MPC)   05/2018
vignan Girls junior College (97.9)

SSC   04/2016
St.Augustine's E.M.H School (9.7)

SKILLS

Web Technology:HTML5,CSS,Javascript   Tools:Visual Studio, Git, GitHub
Frameworks/Libraries :Bootstrap,React.js   Databases:MySQL

PROJECTS

Real-time Train Information Web App
- Designed and developed a web application that provides real-time train schedules, routes, and PNR status using the **IRCTC Train Information API**.
- Implemented **user authentication** to enable secure access, allowing users to save personalized train searches and PNR status tracking.
- Used **HTML**, **CSS**, and **Bootstrap** to build a responsive, mobile-friendly interface for seamless navigation across devices.
- Integrated **JavaScript** for fetching and dynamically displaying real-time data from the API, ensuring users receive up-to-date train information.
- Implemented robust error handling and loading states to improve the user experience when retrieving real-time data.

King Guest House Booking Application
- Built a dynamic, single-page application using **React**, enhancing the user experience with interactive components.
- Integrated **React Router** to provide seamless navigation between room listings, room details, and booking forms.
- Managed state across components using **React hooks** like useState and useEffect for handling data updates and fetching room availability.
- Designed the user interface with **Bootstrap** for a responsive layout, ensuring compatibility across devices.
- Implemented filtering and sorting options for room listings to enhance user navigation and search functionality.
